PROFESSIONAL SUMMARY

Front-End Developer specializing in React.js and modern JavaScript (ES6+), with hands-on experience building responsive, production-quality web applications. Skilled in integrating REST APIs, implementing authentication flows, and architecting reusable component systems with clean, maintainable code. Proficient in Git-based collaborative workflows and passionate about building scalable and user-focused web applications while continuously improving technical skills. Seeking to bring strong problem-solving ability and React expertise to a professional Junior Front-End Developer role.

CORE COMPETENCIES

React Development • JavaScript (ES6+) • State Management • REST API Integration • Authentication • CRUD Operations • Responsive Web Design • Component-Based Architecture • Git Workflow • Problem Solving

TECHNICAL SKILLS

Languages & Core: HTML5, CSS3, JavaScript (ES6+), Object-Oriented Programming

React Ecosystem: React.js, React Router, Context API, State Management

Styling & Responsive Design: Tailwind CSS, Bootstrap, Flexbox, CSS Grid

API Integration: REST APIs, Axios, Fetch API, Local Storage

Tools: Git, GitHub, VS Code

PROJECTS

Circle - Social Media Platform | React.js, Tailwind CSS, React Router, Axios, Context API, Local Storage

- Architected and built a full-featured, responsive social media application from scratch, delivering a consistent user experience across desktop and mobile viewports
- Implemented authentication and session persistence using Local Storage, enabling users to remain signed in across browser sessions.
- Developed complete CRUD functionality for posts and comments, allowing users to create, edit, and delete content in real time
- Engineered a like/unlike interaction system with instant UI feedback to increase user engagement
- Designed a library of reusable, modular React components, reducing code duplication and simplifying long-term maintenance
- Integrated REST APIs using Axios for reliable data fetching and submission, with structured error handling for failed requests
- Managed global application state using Context API and implemented skeleton loading states to improve perceived performance

Adasa Photography Website | React.js, React Router, JSON, CSS

- Developed a fully responsive photography portfolio website, optimized for consistent rendering across screen sizes
- Structured page content using JSON data sources, enabling scalable and easily maintainable content updates
- Built reusable gallery and layout components following component-based architecture principles
- Implemented client-side routing with React Router for smooth, seamless navigation between gallery pages
- Applied custom CSS styling to create a clean, image-focused visual design that highlights the photography

EDUCATION

Bachelor of Technology, Management Technology and Information Systems (TIS) | Port Said University

Graduated: June 2026 | Grade: Very Good with Honors

TRAINING & ACTIVITIES

Front-End Development Diploma | Route Academy | Oct 2025 – Apr 2026

- Completed a comprehensive 6-month Front-End Development Diploma covering modern front-end development technologies.
- Studied HTML5, CSS3, Bootstrap 5, JavaScript (ES6+), DOM, BOM, AJAX, jQuery, Tailwind CSS, TypeScript, and React.js.
- Built multiple practical projects while applying responsive design, component-based architecture, and modern JavaScript concepts.
- Successfully completed the diploma and earned the official completion certificate.

Front-End Web Development Program | National Telecommunication Institute (NTI) – 120 Hours | Jul-Aug 2024

- Completed an intensive 120-hour front-end development program covering HTML5, CSS3, Bootstrap, and JavaScript with 100% overall program evaluation.
- Recognized for Best Final Project Idea among program participants, reflecting strong initiative and applied problem-solving

Front-End Web Development Bootcamp | TROSC

- Successfully completed a practical Front-End Web Development Bootcamp focused on building responsive and modern web interfaces.
- Studied HTML5, CSS3, Bootstrap 5, and JavaScript (ES6) through hands-on coding exercises and practical projects.
- Achieved Grade: A, demonstrating strong technical performance and consistent problem-solving skills.
- Successfully completed the bootcamp and earned the official completion certificate.

ADDITIONAL INFORMATION

Languages: Arabic (Native), English (Intermediate) | Currently Learning: Next.js, TypeScript

Soft Skills: Problem Solving, Teamwork, Communication, Adaptability, Attention to Detail

Military Status: Exempted from Military Service
